

# Harvest Family Success Center Presents:

## Financial Literacy

### Learn important techniques like:

1. How to create a monthly budget
2. How to live within your means
3. How to protect yourself against fraud and identity theft

All of these techniques will help you get through this difficult time. These methods will better assure that your family has the funds and knowledge needed going forward to save money, protect yourself against scams, and even start paying off debt. Due to the ongoing crisis, this program will be completed over the phone or through video chat. We will be as flexible as possible so you can acquire the techniques that will make your life at home much easier and less stressful!

Registration is required; email Carmel Gettings at [cgettings@njprevent.com](mailto:cgettings@njprevent.com) to sign up today!

The Harvest Family Success Center is administered by Prevention Resources with funding from the Department of Children and Families.

*This program is made possible due to a grant offered by the County of Hunterdon, Department of Human Services.*
